ACADEMIC PROJECTS

- **Head Movement and Voice Controlled Based Head Belt for Physically Challenged**
Jun'18-May'19
The main aim of this project is to design head belt for physically challenged. The user can wear this device to head and with the simple head movement's, he can request the basic needs like water, medicine, etc. He can also request the electric appliance like fan, bulb, etc.
- **Hospital Finder**
Jan'19-May'19
Our main mission is to provide good hospital. suppose we are in medical emergency & in that place we are totally unaware about hospital care so the solution for that we developed the Android application for the user to search the nearby hospital and give healthcare services as soon as possible.
- **The Chocolate Café Website**
Apr'22-Oct'22
<https://thechocolatecafe.co.in>
The Chocolate Café is a creative, free café website created with the Bootstrap framework. This free website is focused for Café, Coffee Shop. It also contained Google fonts, good images and for different dynamic effects. This is packed with clean, flat and simple design for a one page website. It is easy to customize and gives awesome display effects on devices of all screen sizes.
